

**Interventional Radiologist - 6 month locum  
Department of Radiology, St Boniface General Hospital**

The department is currently seeking a fellowship trained interventional radiologist who is Royal College certified in Diagnostic Radiology. The position is for a 6 month locum from December 1, 2019 to May 31, 2020.

**Position:**

The position will be 40% interventional and 60% diagnostic radiology (X-ray, US, CT/CTA, and MRA) as the department is already supported by a full time interventional radiologist. Mammography or MRI is not a requirement.

Call responsibility is only for Interventional radiology but is a citywide service with 1:5 call pool.

As St. Boniface is an academic site, the candidate may be asked to contribute to the residency program in the form of teaching.

**Site:**

St. Boniface General Hospital, with over 500 beds, is a tertiary health care facility affiliated with the University of Manitoba. It is the cardiothoracic centre of Manitoba.

The angiography suite in our department is busy providing a variety of services (PAD, dialysis/vascular access, embolization, ablation). We have a dedicated day for TEVARs and EVARs and work closely with the Vascular and Cardiac Surgery departments.

**Group:**

Manitoba X-Ray Clinic (MXC) is a highly cohesive and collegial group of 25 radiologists.

**To Apply:**

All interested and qualified candidates should submit their curriculum vitae (by July 20, 2019) to the following two contacts:

Dr. Siuchan Sookhoo (ssookhoo@sbgh.mb.ca) - Interventional Radiologist

Dr. Blake McClarty (BMcClarty@exchange.hsc.mb.ca) - Neuroradiologist & Chairman, MXC
