

Interventional Radiologist Regina, Saskatchewan Canada

Posting Date: October 29, 2019

Remuneration: Contract

Benefits: Responsibility of the physician

Language of Work: English

Position Profile:

The Department of Imaging in Regina, Saskatchewan is a busy, dynamic radiology group and provider of high quality radiology interpretations to two tertiary care centers and multiple peripheral sites. The successful candidate will join the existing team of 3 Interventional Radiologists.

The Saskatchewan Health Authority (SHA) is dedicated to learning and is a partner in the growing educational needs of medical students and residents from the College of Medicine, University of Saskatchewan.

The University of Saskatchewan is a research-intensive institution with 22,000 students and 7,000 faculty and staff, and a strong reputation for innovation and excellence. The College of Medicine has an intake of 100 students per year with a commensurate number of positions for residency training. Medical Imaging is a department of the College of Medicine and is an integral element of the Saskatchewan Health Authority.

The Community:

Regina is a beautiful oasis on the prairies with a steadily growing population exceeding 200,000. Regina is known for its generous, friendly people and rich community pride, fuelled by the "I Love Regina" campaign. This welcoming prairie city has an abundance of parks, sports and recreational facilities, bicycle pathways, family attractions and an exceptional quality of life. There are many attractions and events that take place all year in Regina for residents and tourists alike (www.regina.ca).

The Saskatchewan Health Authority:

The SHA is the largest organization in Saskatchewan, employing over 44,000 employees and physicians responsible for the delivery of high quality and timely healthcare for the entire province. We are driven by the commitment to improve frontline patient care for Saskatchewan people, and we are working together to better coordinate health services across the province to ensure that patients receive high quality, timely healthcare, wherever they live in Saskatchewan.

The SHA supports a shared commitment to a Representative Workforce that is respectful and inclusive of all staff and clients. We welcome applications from those who will contribute to the diversity of our community.

Qualifications:

Successful candidates will hold certification or be eligible for certification from the Royal College of Physicians and Surgeons of Canada (RCPSC) and be eligible for provisional or regular licensure from the College of Physicians and Surgeons of Saskatchewan (CPSS) to practice in Saskatchewan. It is an expectation that the candidate would have completed 1 year fellowship in Interventional Radiology and will be proficient in General vascular procedures, and Interventional Oncology. Preference will be given to candidates with RCPSC designation in Interventional Radiology.

This individual should be a team player, be able to interact effectively with patients, colleagues, staff and management, and function well in a high volume environment with a commitment to provision of high quality patient and family centered care.

In accordance with immigration requirements, preference will be given to Canadian citizens and permanent residents of Canada.

The successful applicant is expected to participate in the undergraduate, postgraduate, and continuing medical education programs of the Department of Imaging in the Regina Area and will be appointed as an Assistant Professor in the Department of Imaging at the University of Saskatchewan.

The start date for this position is negotiable. Applications will be accepted until the position is filled.
