

## INTERVENTIONAL RADIOLOGIST NIAGARA HEALTH

The Department of Radiology at Niagara Health seeks a highly skilled and motivated fellowship trained Vascular and Interventional Radiologist with a track record for providing compassionate and efficient care to join the Diagnostic Imaging Service. The candidate will be a member of a 24/7 full service interventional radiology program for the Niagara Region.

Niagara Health is one of the largest multi-site health care systems in Ontario serving 434,000 residents within the Regional Municipality of Niagara. With 700 beds, 4,500 employees, 640 physicians and a \$500M budget, the NHS provides a wide range of inpatient and outpatient services across six sites encompassing operations in Fort Erie, Niagara Falls, Niagara-on-the-Lake, Port Colborne, Welland and a one million square foot state-of-the-art hospital in St. Catharines.

The transformation of healthcare service delivery across Niagara continues with planning underway to build an additional ultramodern hospital in South Niagara Falls to provide accessible and quality healthcare to residents of the Southern Region. Niagara Health is positioned, by virtue of its geography and regionally distributed resources, to exemplify the best of regional capacity with local service delivery. Strong academic partnerships are a priority for the NH as the organization builds on a robust relationship with McMaster University’s Michael G. DeGroot School of Medicine.

<b>Current group:</b>	<ul style="list-style-type: none"> <li>• Twenty radiologist group</li> <li>• Interventional radiology call is shared equally with 1:4 frequency</li> </ul>
