## **ACADEMIC INTERVENTIONAL RADIOLOGIST - HAMILTON**

The Department of Radiology, McMaster University and the Department of Diagnostic Imaging, Hamilton Health Sciences are seeking a full-time radiologist for the Juravinski Hospital and Cancer Centre interventional program, for start date of July 2023. Academic rank will be commensurate with the candidate's qualification and experience.

As a full time faculty member within the Department of Radiology, the successful candidate will promote clinical scholarship and have a strong commitment to excellence in teaching, mentorship and interest in research. The successful candidate will participate in teaching and supervision of residents within our highly rated Diagnostic Radiology Residency Program and will support and participate in teaching activities in the undergraduate medicine program and other relevant programs. Teaching and supervision of interventional fellows in our McMaster fellowship programs is required.

Applicants must be certified (or eligible for certification) by the Royal College of Physicians and Surgeons of Canada in Diagnostic Radiology (or equivalent) and hold (or be eligible for) an independent license in the Province of Ontario. Successful applicants must have completed specialty fellowship training interventional radiology.

Hamilton Health Sciences is a large multi-site tertiary centre, providing a full range of interventional radiology services, with a focus on oncology and hepatobiliary IR at the Juravinski Hospital and Cancer Centre site. This includes liver ablation (MWA & RFA), renal cryoablation, TIPSS/BATO/BRTO amongst other routine oncology procedures, including a high volume of percutaneous biliary drainage and urology procedures. There is currently significant emphasis on developing a dedicated IR clinic and an application as a Y-90 radioembolization site. The interventional imaging team works alongside clinical colleagues to deliver optimal evidence-based patient care. The position involves scheduling for daytime interventional work at two tertiary hospital sites, as well as participation in the city-wide (3 site) interventional radiologist on-call schedule at Hamilton Health Sciences, which includes a Level 1 trauma centre. The position also includes some general radiology/body imaging assignments. It is expected that the successful applicant will be assigned at least 3 dedicated IR sessions a week with a possibility of more assignments due to clinical volumes and vacation/leave coverage.

Hamilton Health Sciences is a family of seven hospitals and a cancer centre, serving more than 2.3 million residents of Hamilton, central south and central west Ontario. The Diagnostic Imaging Department at HHS provides comprehensive care for the region, with subspecialty imaging expertise.

McMaster University has consistently placed among the top 50 universities in the world for health and medicine. The Michael G. DeGroot School of Medicine is world renowned for its innovative method of small group, problem-based education, and a focus on self-directed, life-long learning. The Department of Radiology provides rewarding opportunities for faculty who are interested in education, clinical excellence, research and multi-disciplinary team projects.

All qualified applicants are encouraged to apply; however, Canadian citizens and permanent residents will be considered first for this position. To comply with the Government of Canada's reporting requirements, the employer is obliged to gather information about applicants' status as either Permanent Residents of Canada or Canadian citizens. Applicants need not identify their country of origin or current citizenship; however, all applications must include one of the following statements: "Yes, I am a citizen or permanent resident of Canada" or "No, I am not a citizen or permanent resident of Canada".

Interested applicants should submit a letter of intent, names of three references and their Curriculum Vitae, **all in PDF format** directing your application to:

Dr. Sabarinath Nair, Head of Interventional Radiology, Hamilton Health Sciences.
